

IN THE CLAIMS:

This listing of the claims shall replace all previous versions of the claims.

Please cancel claim 15, amend claims 1, 6, 11-12 and 14-15 as follows:

1. (Currently Amended) A rabbit having rabbit skin containing a kallikrein production inhibition activity, said rabbit skin ~~is having rabbit skin tissues and obtained by the following process comprising: vaccinating rabbit skin tissues with vaccinia virus, feeding the rabbit having rabbit skin tissues vaccinated with vaccinia virus, killing the rabbit when its skin tissues is sufficiently inflamed, and skinning the rabbit.~~ rabbit, eluting at least a portion of the rabbit skin, and fractionating the eluted portion of the rabbit skin based on molecular weight.

2. (Original) The rabbit skin according to claim 1, wherein the said vaccinia virus is vaccinia virus Lister strain.

3. (Original) The rabbit skin according to claim 1, wherein the said vaccinia virus is vaccinia virus Ikeda strain.

4. (Original) The rabbit skin according to claim 1, wherein the said vaccinia virus is vaccinia virus Dairen strain.

5. (Original) The rabbit skin according to claim 1, wherein the said vaccinia virus is vaccinia virus EM-63 strain.

6. (Currently Amended) The rabbit skin according to claim 1, wherein the said vaccinating rabbit skin tissues with vaccinia virus is effected by injecting subcutaneously ~~0.1-0.4~~0.1-0.4 ml solution containing ~~10⁶-10⁹~~10⁶-10⁹ viruses/ml each site, 100 to 250 sites per rabbit weighing ~~1.5-3~~1.5-3 Kg.

7. (Previously Presented) The rabbit skin according to claim 1, wherein the said rabbit is a Japanese white rabbit.

8. (Previously Presented) The rabbit skin according to claim 1, wherein the said rabbit is a New Zealand white rabbit.

9. (Previously Presented) The rabbit skin according to claim 1, wherein the said rabbit is a Chinese rabbit.

10. (Previously Presented) The rabbit skin according to claim 1, wherein the said rabbit is a Blue-violet rabbit.

11. (Currently Amended) The rabbit skin according to claim 1,
wherein the said killing of the rabbit when its skin tissues are sufficiently inflamed is effected
when the rabbit skin inflammatory tissue shows visible blains accompanying with changing
~~colour~~color from redness to mauveness and becomes thick, and its subcuticle and hip become
swollen.

12. (Currently Amended) The rabbit skin ~~according to claim 1 as in any~~
of claims 1-11, which possesses a specific alteration of rhythm in environmental temperature
activity of 0.5 iu/g SART activity or more.

13. (Cancelled)

14. (Currently Amended) ~~A drug comprising water and an extract~~
~~of the~~The rabbit skin ~~according to~~of claim 1.1, wherein a drug is formed comprising
water and an extract of the rabbit skin, whereby the extract of the rabbit skin is obtained
by:

extracting a portion of the rabbit skin with an organic solution following
skinning the rabbit;
processing the extract of the rabbit skin with an acid and an alkali; and
and eluting the extract of the rabbit skin.

15. (Currently Amended) ~~A health food comprising water and an extract of the~~ ~~The rabbit skin according to~~ ~~of claim 1,~~ wherein a health food is formed comprising water and an extract of the rabbit skin, whereby the extract of the rabbit skin is obtained by:

extracting a portion of the rabbit skin with an organic solution following skinning the rabbit;
processing the extract of the rabbit skin with an acid and an alkali; and
and eluting the extract of the rabbit skin.
